100

OF DEATHS, that annually occur, are caused by Preventable Diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills, (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, CALIFORNIA VINEGAR BITTERS! be exterminated from the system in a few hours. PAIN, no matter from what cause, is almost instantly cured by the Ready Relief. In cases of Cholera, Diarrhoea, Cramps, Spasms Bilious Cholic, in fact all Pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, Rheumatism, Neuralgia, Fever and Ague, Headache, Toothache, &c., will in a FEW MINUTES yield to the soothing influence of the Ready Relief.

Sudden Colds, Coughs, Influenza, Dip-theria, Hoarseness, Sore Throat, Chills, Fever and Ague, Mercurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also take a teaspoonful of the Ready Relief in a glass of warm water, sweetened with sugar or honey; bathe the throat, head and chost with Ready Relief, (if Ague or Intermittent Fever, bathe the spine also,) in the morning you will be cured.

How the Ready Relief Acts!

In a few minutes the patient will feel s slight tingling irritation, and the skin be-comes reddened; if there is much distress in the stomach, the Relief will assist nature in removing the offending cause,—a general warmth is felt throughout the entire body, and its diffusive stimulating properties rapidly courses through every vein and tissue of the system, arousing the slothful and of the system, arousing the slothful and partially paralyzed giands and organs to renewed and healthy action, perspiration fol-lows, and the surface of the body feels in-creased heat. The sickness at stomach, colds, chills, head-ache, oppressed breathing the soreness of the threat, and all pains, either internally or externally, rapidly subside, and the patient falls into a trangull aleep, awakes refreshed, invigorated, cured. It will be found that in using the Belief

externally, either on the spine or across the kidneys, or over the stomach and bowels, that for several days after a pleasing warmth will be felt, showing the length of time it con-tinues its influence over the diseased parts.

To Price of R. R. R. RELIEF, 50 cents per bottle. Sold by Druggists and Country Merchants, Grocers, &c.

> RADWAY & CO., 87 Maiden Lane, New York.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one tea-spoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times during the day. Take one of Radway's Pills one hour before dinner, and one on going to Bed.

If seized with Fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking Relief repeatedly, every four hours, also the Pills. A cure will be sure to follow. The relief is strengthening, stimulating, soothing, and quieting; it is sure to break up the Fever and to neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is posi-In all cases where pain is felt the Relief should be used.

Relief 50 ets.; Pills 25 ets. Sold by all Druggists.

For Sale by Redington & Co., San Francisco, Crane & Brigham, San Francisco, R. H. McDonald & Co, San Francisco, Justin Gates & Bro. And by all Druggists and Country Merchants.

MORE THAN 100,000 PERSONS REAR TESTIMONY TO The Wonderful Curative Effects of Dr. Joseph Walker's

THE GREAT BLOOD PURIFIER.

The Life of all Flesh is the Blood thereof. Purify the Blood, and the health of the whole system will follow. It is a Gentle Pur-gative, as well as a Tonie. These Bitters are not a gilded pill, to de-light the eye or please the fancy, but a Medical Preparation, composed of the Best Vege-table Ingredients known.

Cleanse the Vitiated Blood, whenever you find its impurities bursting through the skin, in Pinsples, Eruptions, or Sores; Cleanse it when you find it obstructed or sluggish in the Veins; Cleaner it when it is foul, and your feelings will tell toll you when. Keep the Blood healthy, and all will be well.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Tightness of the Chest, Coughs, Dissiness, Sour Eracta-tions of the Stomach, Bad Taste in the Mouth, tions of the Stomach, Bad Taste in the Mouth, Billious Attacks, Palpitation of the Heart, In-flamation of the Lungs, Copious Discharges of Urine, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of this Dyspepsia. For these troubles, take Dr. Walker's Vinegar Bitters, and quickly all painful symptoms will disap-ment.

It is a Gentle Purgative. As well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion, or Inflamation of the Liver, and all the Visceral Organs. In this respect, these Bitters have no equal.

For Female Complaints. Whether in the young or old, married or sin gle, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence, that a marked improvement is soon perceptible in the health of the patient.

For Infismmatory Rheumstism, Chronic Rheumatism and Gout, these Bitter have been most successful. They are caused by vitiated blood, which is generally produced y derangement of the Digestive Organs.

Pin. Tups and other Worms, larking in the system of so many thousands on the Pacific loast, are effectually destroyed and removed. Morbid Condition of the Blood.

This is the fruitful source of many diseases, uch as Tetter or Salt Rheum, Ringworm Boils, Carbuncies, Sores, Ulcers, Pimpier, and Eruptions of all kinds. For the cure of these various affections, which are merely symptoms of a Morbid Condition of the Blood, medical science and skill have not, as yet, discovered a Blood Purifier equal to Walker's Vinegar Ritters. Diseases of the Blood.

Liver, Kidneys, and Bladder. It thoroughly eradicates every kind of humor and bad taint, and restores the entire system to a healthy condition. It is perfectly harmless, never producing the slightest injury.
Billious Remittent Fevers,

And Intermittent Fevers, which are so preva-lent in the Valleys of the Pacific Coast, during the Summer and Autumn, and especially during seasons of unusual heat and dryness, are invariably accompanied with extensive de-rangements of the Stomach and Liver, and other abdominal viscera. There are always more or less obstructions of the Liver, a weakness and irratable state of the Stomach, and great topor of the Bowels, being clogged up with vitlated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no eathertie for this purpose equal to Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are londed, at the same time stimulating the secretions of the Liver, and restoring the healthy functions of the Digestive Organs generally, universal popularity of this valuable re in regions subject to miasmatic influence The ment evidence of its power as a remedy in such diseases. For full directions, read carefully the circu-

lar around each bottle.

SLOWCUS ON VELOCIPEDE. The shades of night were coming down

As swiftly racing through the town A youth whose strength could source suffice To keep him on that strange device,

His brow was sad; his eyes revealed His woe, like onions newly peefed; And like a five cent jewsharp rung, " Velocipede!"

A jolly ravern he draws near; His throat is parching for a drop But yet he can't make out to stop Velocipede What makes you pass?" an old man said,

As youth tore past on 'tother side,

And answering very faintly cried, "O stay," a maiden shricked, and says "Rest your soft head agm these stays;" He answered, "I would go, it dear, "If I could only shake this here

Velocipepe !" Beware the lamp post up the street, Beware! a gutter soon you'll meet!" But he went rattling out of sight, And nary more was seen that night Velocipede!

At break of day, far out of town, Velocipade ali broken down A cow boy found, who then and there Uttered his self complacent prayer " Velocipede!

Among the fragments on the ground; Whither he went no tongue can tell,

Our traveler could not be found

Perhaps he went on straight on to-Oft in the twilight cold and gray Our Velo-City-zens may by And hear this sadly solenin sound,

New York Correspondence.

FROM AN OCCASIONAL CORRESPONDENT.] Lent and the Forty Thieres-Changes in New York City-The Pavenents-Plundering Con tracts—The Broadway Surface Railroad Bill -A. T. Slevart's Clack-movement,

NEW YORK CITY, 1869. Lo! the winter is past, "the rain is over Thieves still reign at Niblo's Garden, in spite | valid, when painfully alive to every sound. of that sharp, old skin-flint, who, after witnessing the dramatic performance of Lydia Thompson and troupe, demanded the return of his admission fee, on the plea that he had been able to count only thirty-nine thieves on the stage. This play brings in about forty thousand dollars per month, to the lucky manager.

The promenader on Broadway, this please ant April afternoon, when he has proceeded as far as Great Jones' Street, suddenly finds himself crowded to the inner part of the side-walk, with but half the usual allowance of roadway, and struggling, in the midst of a confused procession of Paniers and hoopskirts. The outer half of the side-walk is occupied by huge piles of granite pavingtones, the arrangement of which, suggests riots and revolutionary barricades.

The stream of carriages and vehicles is turned aside and finds its way through side streets, until it emerges again below the obstruction in the great thoroughfare. Where a few hours since, the continual procession flowed like a river, now a gang of workmen are tearing up the strong pavement and exposing the soil, where malaria and disease have been covered over for sixteen years. Many parts of New York are built on swamps, and over the beds of what were once sluggish streams of water, the imprisoned moisture of which, breeds a poisonous miasm. Phy sicians can trace the course of these concealed streams by the cases of intermittent fever that occur along their track, and many of the laborers who expose themselves, in their work, to the influence of these emanations, are seized by malarious fevers.

Why is this old road way so unceremonlously disturbed? The operations we see, mean that a contract has been made for putting down a new pavement on Broadway. To every one who lives in the city, the subject of pavements is one of great interest. The two desiderats in a pavement are, that it shall offer a firm footing to horses, and that it shall be cheap. In Paris, Louis Napoleon conceives it to be an additional desideratum that it shall be such, as not to furnish the Saus Culottes with the materials for barricades in their next revolutionary frenzy. He has accordingly removed a large part of the pavingstones, and the streets of Paris are macada-

The principal varieties of street pavement

in New York, are five: First-The well-known "Cobble-Stone" pavement. This is made of rounded, waterginia "corduroy." Its only merits are cheapness and ease of repair. Numerous streets of this city boast nothing better than this primitive paving.

Second-The pavement next in frequency of use is the "Belgian." This pavement is pavement costs about four dollars a yardcomposed of granite blocks, each about six certainly not a very extravagant investment inches square on its base, seven deep, and slightly pyramidal in form. The larger cods, or the bases of the pyramids, are turned up, and form a firm, even floor, that is a great dollars per yard for it, and are forced to pay improvement on the bossy knobs of the cob-

Third-The "Russ" pavement. This is a of each stone makes it difficult of displacement, for which reason it is used on Broadway and on other streets, where the wear and travel are the heaviest. But this advan-

stimulus of caths and kicks to regain his gers at three cents a head. But this arrange fatigable gentleman, Mr. Bergh, whose exerfatigable gentleman, Mr. Bergh, whose exer- Stewart's proposition is almost certain to be tions, as President of the "Society for the rejected.

CLAYIS.

Prevention of Crucity to Animals," are som thing heroic and remarkable, and reminds one at times, of the insane devotion of Don

Quixote. This gentleman has, for many years, shown his humanity by a tender regard for the dogs, cats, sheep, rabbits, frogs -47and turtles which have had the honer of ennobling their lives by becoming martyrs to science, under the experiments of such vivi-

sectors as Professor Dalton and Austin Flint, Jr. It is due, however, to these centlemen to say, that their devotion to selence has never led them to inflict unnecessary pain, in their experiments. But to return to the Galvanized Corrugated Roofing.

'Geded" pavement, now for the first time being introduced into New York. It is the patent of a German, whose name it bears, and it is said has never been used elsewhere The pavement is made of deep, narrow granite blocks, from three and a half, to five inches deep. The process of putting down this pavement, is as follows: First, the street is bedded with gravel and coarse sand, which is carefully smoothed and rounded off; upon this the payement is laid. Each stone-about the size of a pulpit bible—is set into the sandy bed prepared for it, and tapped until

The fourth kind of stone pavement is the

it fits into its proper place. The stones are placed on their edges, and arranged lengthwise across the street-" breaking joints," as bricklayers say-thus making an interrupted surface, on which no horse need slip. An every ten feet-is given to the centre of the roadway, to make the necessary water-shed. After this, the stones are driven down by powerful blows from heavy beetles, until they are solidly fixed in their beds. Cartloads of sand are now brought on, and spread

When this new pavement is completed, Broadway will present a solid stone floor, of superior construction, more than forty feet wide, stretching in beautiful undulations from the gothic steeple of "Trinity," to the elegant spire of Grace Church, which limit the vista at either end of the street.

over the whole surface. This sinks down

between the stones, and fills every crack and

In New York, until lately, the idea of a payement which should be nearly noiseless, has hardly been entertained. Street pave ments have always been drums, to be beater by iron hoofs. And the noise of a miserable and gone." Lent, with its forty days of ab- milk-cart, rattling at early morn over the stinence, has done its work of preparation rough cobble-stones, can penetrate the merupon the bodies and souls of men, and its chant's mausion and disturb his golden days are numbered. But the Forty Pretty dreams, or rack the fevered brain of an in-

I write in the neighborhood of three of the principal music halls of the city. During "the season," they are constantly used for balls and concerts, and on these occasions the neighboring streets are blocked up with a great number of backs and private carrisges, crowded together in seemingly inextricable confusion. When the gray dawn breaks upon the city and signals to the gay revellers to "cloak and away to home, the hubbub that ensues among the coach men and cab-drivers, defies description. What with the rattling of wheels, the stamp ing of countless iron boofs on the stones. and the maledictions of the "Jehus," that pour in at every open casement, sleep is murdered for all the neighbors.

Fifth-The "Nicholson" Payement. But after years of poise from such payements. one has been invented and brought into use which makes the most travelled thoroughfare hardly more noisy under the tramp of a thousand hoofs than a grassy plain.

"And silence, like a poultice fell, And healed the blows of sound." If some philanthropic inventor would now complete this discovery by contriving noiseless wheels for the carriages, and inaudible hoofs for the horses, the dawn of the millenium would be greatly hastened. This noise less pavement, called the "Nicholson" Pavement, is made of sections of pine wood, placed so that the grain runs vertically. It

where it is most desirable to prevent noise. Locks, of various descriptions, The process of putting down this payement is quite simple: A flooring of planks, soaked in tar, is first laid on a smooth sand-bed. The wooden blocks are sections of three inch pine planking, and are about eight inches deep. These are dipped in boiling tar, and then placed edge to edge, vertically, in a line. running across the street, resembling the types in the composing-stick of a printer. The blocks are now nailed firmly to cleats that run up a few inches from the flooring; there then remains above the cleat, an inter val, between the rows of wooden blocks, as thick as the cleat itself. This wpace is subse quently filled with a particular size of gravel stones, that have been dried thoroughly, over portable furnaces. Melted pitch is now poured down these cracks, until every seam and interstice is full. The gravel and pitch are firmly compacted by heavy blows; more pitch is poured on and covered with gravel, and the Nicholson pavement is complete-a noiseless one it is, and which finds favor (as washed stones of various sizes, that form a a contractor said to me) with all classes, exroad that is by no means even, over which cept the blacksmiths, for it is not destructive wheels lurch and joit and rattle, as noisily, to horse-shoes. This pavement has been and almost as uncomfortably, as over a Virthoroughly tried in Chicago, Cleveland, and other cities of the West, where it was invented, having stood the test of many years.

The cost of laying the Geded pavement in Broadway, is three dollars and seventy-five cents by the square yard. The Nichols for New Yorkers, when we consider the prices they pay for slike and shawls. But the unhappy house-owners are charged ten

it. The six dollars extra, is pure "steal." Up to this time, Broadway, below Fourteenth Street, has escaped the mutilation and heavier pavement than the Belgian, and dif- damage of a horse-railroad. But there is fers from it, simply to being made of stones | now in the Legislature at Albany, a power. about eight or ten times as large. It has the ful combination, backed by millions of doladvantage over the former, that the weight lars, that is exhausting every means of bribery, intrigue, and political influence, to carry through, over the veto of the Governor, bill, granting to a corporation the right to run a surface railroad through Broadway. tage is offset by the equally great disadvan. The privilege of doing this is worth a grea tage, that the smooth, uninterrupted surface sum of money, as such a railroad would be of stone is so great as to make footing on it immensely profitable to its stockholders. very precarious. To obviate this difficulty, This huge scheme of plunder, while it has each stone is deeply groved; but still, the stirred a deep feeling of indignation in the number of accidents that weekly occur on it, minds of all thinking citizens, seems almos is considerable. This kind of pavement has to have paralyzed its expression through the been used on the principal part of Broadway public press, as with a feeling of he ness. Appreciating this, A. T. Stewart lately During allppery weather, it is almost an offered to give two million of dollars into the hourly occurrence to see some horse stretch- public treasury, for the privilege of laying ed upon his side, vainly struggling under the this railroad, and promising to carry passenfooting—a sight that must appeal painfully ment would not fill the pockets of the "honto the sympathies of that worth, and indeorable men" who vote for the bill; so Mr.
